Frequently Asked Questions

- There are FOUR possibilities if the headset seems no sounds
- Headphones and your Bluetooth audio device are not properly paired / connected PC/Laptop's current default output is not set as this headset.
- The headphones volume is too low to be heard.
- Headset is a defective unit.
- For more detailed settings please search "Avantree AH6" on "support.avantree.com" or

contact support@avantree.com directly.

2. Can this headset be used with TV/ PC? Yes, it can, for more detailed step by step instructions please search "Avantree AH6 TV/PC" on "support.avantree.com" or contact support@avantree.com directly.

3. Audio delay

To take advantage of the better performance of aptX Low Latency codec please make sure your Bluetooth devices/ transmitters support the aptX Low Latency codec. If the Bluetooth devices/ transmitters only support the normal aptX codec, SBC or aptx-HD, these codec will be used instead, that's why you still experience an audio delay/lip-sync

4. Poor sound quality

To take advantage of the better sound quality of its aptx-HD codec please makes sure your Bluetooth devices/ transmitters support the aptX-HD codec.

Reconnexion

2. Connection et appairage

Mettre l'Avantree AH6 en appairage:

Appairage à un téléphone mobile

Connecter un téléphone supplémentaire

avec l'indicateur LED clignotantalternativementen ROUGE et BLEU.

Connectez le casque avec le 2nd téléphone comme ci-dessus.

• Activez le Bluetooth sur votre téléphone et recherchez les nouveaux appareils.

• Connectez-vous avec le premier téléphone comme ci-dessus, puis éteignez le casque.

• Sélectionnez "Avantree AH6". Une fois associé, vous entendre "connected".

L'Avantree AH6 est maintenant connecté avec 2 téléphones simultanément.

Mette en appairage votre casque comme ci-dessus...

Sélectionnez "Avantree AH6" sur le 1ier téléphone

Lorsque la LED clignote ROUGE 3 fois toutes les 10 secondes (ou si vous entendez les instructions vocales «Lowbatterypleaseturn off and charge»), vous devez charger complètement votre casque pendant 3 heures. Le casque peut être rechargé avec son chargeur de bureau (DC5V / 0.5-1A) ou à l'aide d'un câble micro USB classique (DC5V / 0.5-1A).

Casque éteint, glissez et maintenez l'interrupteur d'alimentation vers 🕻 , jusqu'à ce que vous entendiez "pairing"

NOTE: L'Avantree AH6 ne prend en charge qu'un seul canal audio. Si vous souhaitez écouter de la musique à

partir d'un autre périphérique Bluetooth, veuillez d'abord mettre en pause la musique de l'appareil en cours

NOTE: Pour utiliser l'aptX-LL avec votre AH6, votre équipement Bluetooth (ou le transmetteur) doit également

La prochaine fois que vous allumerez l'Avantree AH6, il se reconnectera automatiquement au dernier appareil

S'il est chargé avec le socle de charge, le voyant LED du socle reste BLANC durant toute la charge et devient VERT lorsque la batterie est pleine.

Si chargé avec le câble micro USB, le voyant LED du casque reste ROUGE pendant le chargement et s'éteint lorsque le chargement est terminé.

4. Effacer l'historique d'appairage

Dans le mode VEILLE du casque (allumé, déconnecté avec les appareils BT / BA), maintenez les deux boutons 🛛 et 🔘 5s jusqu'à observer la LED clignoter VERT 2 secondes. Ceci fait, le casque se mettra en APPAIRAGE

Portare Avantree AH6 in modalità accoppiamento:

Da spento, portare il pulsante dell'accensione verso 🕻 e tenerlo premuto fino a quando non si sente il comando vocale "accoppiamento" e l'indicatore LED non lampeggia in ROSSO e BLU in modo alternato

Accoppiamento con un dispositivo mobile

2. Connessione e accoppiamento

- Portare le cuffie in Modalità Accoppiamento come descritto sopra. Attivare il Bluetooth sul proprio telefono e ricercare nuovi dispositivi.
- Selezionare "Avantree AH6". Una volta accoppiato, si udirà il comando vocale "connesso".

Per aggiungere un altro cellulare

- Connettere il PRIMO telefono come sopra riportato, poi spegnere le cuffie.
- Connettere le cuffie con il SECONDO telefono come sopra riportato
- Selezionare "Avantree AH6" sul PRIMO telefono

Ora Avantree AH6 è connesso con I due telefoni simultanea mente. NOTA: Avantree AH6 supporta solo un canale audio. Se si desidera ascoltare la musica da un altro dispositivo

Bluetooth, prima mettere in pausa il dispositivo attuale NOTA: per utilizzare la funzione aptX-LL di Avantree AH6 i dispositivi Bluetooth o le trasmittenti Bluetooth devono

supportare la funzione aptX-LL. Riconnessione Quando si accende Avantree AH6 la volta successiva, questo di riconnetterà automaticamente all'ultimo dispositivo accoppiato. Oppure è possibile premere una volta per riattivare la modalità RICONNESSIONE Oppure è possibile ritornare in Modalità Accoppiamento per connettersi con il dispositivo desiderato.

3. Ricarica

Quando il LED lampeggia in ROSSO per 3 volte per 10 secondi o si sente il comando vocale "Batteria bassa, si prega di spegnere il dispositivo e ricaricarlo", occorre ricaricare il dispositivo per 3 ore. Le cuffie possono essere caricate attraverso il caricature da tavolo (DC5V/0.5-1A) o attraverso un cavo micro USB (DC5V/0.5-1A). Se si utilizza il caricatore da tavolo, l'indicatore LED rimarrà BIANCO durante la ricarica e diventerà VERDE una volta completata. Se si utilizza il cavo micro USB, l'indicatore LED rimarrà ROSSO durante la ricarica e si spegnerà una volta completata.

4. Eliminazione della cronologia

Con le cuffie in MODALITÀ STANDBY MODE (acceso, disconnesso con i dispositivi BT/BA) tenere premuti I pulsanti 🔊 e 🔊 per 5s fino a quando il LED non lampeggia in VERDE per 2 secondi, poi le cuffie entreranno in MODALITÀ ACCOPPIAMENTO.

- Entrar en Modo de EmparejamientoAvantree AH6: Con el dispositivo apagado, deslizar y mantener el interruptor en dirección a 🕻 , hasta que escuche "emparejando" y el indicador LED alterne luz ROJA y AZUL.

3. Charging

When the LED flashes RED 3 times per 10 seconds or you hear the voice prompts "Low battery please turn off and charge", you should fully recharge the device for about 1 hour. The headset can be charged with the desktop charging stand (DC5V/0.5-1A) or with the micro USB cable (DC5V/0.5-1A).

 Charged with the desktop charging stand – The LED indicator on the charging stand will remain WHITE while charging and turn to GREEN when charging is complete Charged with the micro USB cable - The LED indicator on the headphones will

remain RED while charging and turn off when charging is complete.

4. Clear pairing history

If you have issues with the audio stream skipping or cutting out when using Avantree AH6, please try to clear pairing history as following:

Firstly, turn on the headset (Non-calling Status), then Tap and Hold BOTH 🛛 & 🔊 5 seconds till the LED blinks **PINK** for 2 seconds, then the headphones enter into PAIRING MODE automatically.

2. Verbinden und paaren

Gehen Sie in den Avantree AH6 Paarungsmodus: Schieben Sie den An-/Ausschalter im AUSGESCHALTETEN Zustand Richtung 🦹 , bis Sie "Paarung" hören und die LED-Anzeige abwechselnd ROT und BLAU aufleuchtet.

- Mit einem mobilen Gerät paaren
- Setzen Sie die Kopfhörer wie oben beschrieben in den Paarungsmodus. Aktivieren Sie Bluetooth auf Ihrem Handy und suchen Sie nach neuen Geräten.
- Wählen Sie "Avantree AH6" aus. Sobald die Paarung besteht, hören Sie "verbunden".
- Ein weiteres Handy hinzufügen • Erstellen Sie die Verbindung mit dem ERSTEN Handy wie oben beschrieben und schalten Sie dann die
- Verbinden Sie die Kopfhörer wie oben beschrieben mit dem ZWEITEN Handy. • Drücken Sie auf und wählen Sie "Avantree AH6" auf dem ERSTEN Handy aus.

Ihrem Gerät oder Ihr Bluetooth-Transmitter aptX-LL unterstützen.

abspielen möchten, halten Sie die Musik auf dem benutzten Gerät zuerst an. HINWEIS: Um die aptX-LL Funktion auf dem Avantree AH6 nutzen zu können, muss die Bluetooth-Funktion auf

Erneut verbinden Das nächste Mal, wenn Sie den Avantree AH6 einschalten, verbindet sich das Gerät automatisch mit dem zuletzt gepaarten Gerät.

HINWEIS: Avantree AH6 unterstützt nur einen Audiokanal. Wenn Sie Musik von einem anderen Bluetooth-Gerät

Alternativ können Sie auch 🐧 einmal drücken, um den WIEDERVERBINDUNGSMODUS zu aktivieren. Oder Sie können noch einmal in den Paarungsmodus gehen, um die Verbindung mit dem gewünschten Gerät zu erstellen

3. Ladevorgang

Wenn die LED-Anzeige alle 10 Sekunden 3 Mal aufblinkt, oder Sie die Sprachansage "Niedriger Akku, bitte ausschalten und aufladen" hören, sollten Sie das Gerät für 3 Stunden vollständig aufladen. Das Headset kann mit dem Schreibtischladegerät (DC5V/0.5-1A) oder mit einem Mikro-USB-Kabel (DC5V/0.5-1A) aufgeladen werden. Wenn Sie das Schreibtischladegerät verwenden, leuchtet die LED-Anzeige während des Ladevorgangs WEISS auf und wird GRÜN, sobald der Akku vollständig aufgeladen ist. Wenn Sie ein Mikro-USB-Kabel verwenden, leuchtet die LED-Anzeige an den Kopfhörern während des Ladevorgangs ROT auf und geht dann aus, sobald der Ladevorgang abgeschlossen ist.

4. Paarungshistorie löschen

Halten Sie die BEIDEN Knöpfe 🛛 und 🔊 im STANDBY-Modus (Strom an, nicht mit BT/BA Geräten verbunden) 5 Sekunden lang gedrückt, bis die LED-Anzeige 2 Sekunden lag GRÜN aufleuchtet, jetzt sind die Kopfhörer im Paarungsmodus.

Dispose of the packaging and this product in accordance with the latest provisions.

FCC Requirement

changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) this device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy, and if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.
